

GUIDELINES FOR DEDUCT/SPRINKLER METERS

- Curran Gardner is solely the billing agent for the SEWER charges associated with the Sangamon County Water Reclamation District. CG DOES NOT determine the rates applied/1,000 gallon. Any questions pertaining to SEWER rate charges are to be answered by the Sangamon County Water Reclamation District. (217)528-0491
- ALL DEDUCT/SPRINKLER METERS installed are to be compatible with Curran Gardner's meter reading system. Therefore, we require Badger Meter's with a Cellular Read Head.
- ALL DEDUCT/SPRINKLER METERS are required to be installed OUTDOORS.
- CG does not install DEDUCT/SPRINKLER METERS.
- ALL DEDUCT/SPRINKLER METERS will be activated by a CG employee during the billing cycle meter read dates (around the 15th of each month).
- The customer is responsible to contact Curran Gardner's Billing Office when or if the DEDUCT/SPRINKLER METER is seasonally deactivated or reactivated.
